

Self-graded Assignment 2 Checklist

Criteria

=====

- [x] The /admin page redirects to the /login page if not logged in.
- [x] The /admin page shows an error message if logged in, but not an admin
- [x] The /admin page shows a list of all users
- [x] The /admin page allows for promoting and demoting users to/from admin type
- [x] All pages use a CSS Framework like Bootstrap (you must incorporate a header, footer, responsive grid, forms, buttons)

- [x] The site uses EJS as a templating engine
- [x] Common headers and footers are shared across all pages
- [x] Code used within loop is templated using EJS (ex: list of users in admin page)
- [x] The members page has a responsive grid of 3 images.
- [x] Your site is hosted on Render or other hosting site.

/50 (Total grade out of 50, 5 marks each x 10 items)

*Note items are considered *fully* complete (marked with an x inside the box: [x]), OR incomplete (box is left empty: [])
